What's happening with Apple?

Winning big with App Development with Swift certification

On this week's episode of the CERTIFIED Educator Podcast, learn how Brian Foutty has used Swift App Development certifications to transform student outcomes in an economically challenged area. Brian talks about the value of app development skills, and how he helps students successfully transition to their next step after high school. Brian also discusses the curriculum he uses in his classroom (it's available at no charge!), and how this program has transformed the lives of his students.

NEW App Development with Swift Success Story

A new success story has been completed for the App Development with Swift program. We encourage you to read and share this new success story about Miami Dade College in Florida.

Miami Dade College has offered iOS app development courses since Fall 2014 to help students build coding skills to prepare for careers in the app economy. Faculty decided to adopt the Develop in Swift curriculum from Apple and App Development with Swift certifications administered by Certiport to help students learn Swift and earn recognition to stand out among app developers to establish a path to job placement. At the end of the first term, following the Develop in Swift course, 64 students took the App Development with Swift Associate or App Development with Swift Certified User exam. The program increased enrollment by 350% this year, and the courses are now structured to support various learning styles to further build student success.

If you have any questions about the App Development with Swift program, or the certifications available, please visit www.certiport.com/apple.

Get ready to learn more about Certiport's Student Competitions!

Is your student the next Champion?

Each year, Certiport hosts two student competitions: the Adobe Certified Professional Championship and the Microsoft Office Specialist (MOS) Championship. These student competitions bring technology certifications to life for your students, provide them with a positive platform to showcase their skills and give them a unique opportunity to earn valuable rewards and recognition.

Helping your students participate in these fabulous events can leave educators with lots of questions. Don't worry, we're here to answer them. Attend the Competitions 101 webinar on September 28 at 5 PM EST to learn more!
