NEWS UPDATE

January 16, 2025

Learn from your fellow educators

Join our next training to empower the marketers, entrepreneurs, and creators in your classroom

The demand for skilled marketing and creative professionals is skyrocketing. In the first half of 2024 alone, there were **over 3.5 million job postings** in these fields across the U.S. How can you help students stand out in this competitive market?

Join us on **January 28 at 12 p.m. ET**, for a co-sponsored webinar about the **Adobe Certified Professional** and **Meta Certified Digital Marketing Associate** certification programs.

Continued…

In this session, we'll cover:

- The essential skills that today's marketing leaders seek.

- How industry-recognized certifications can validate students' expertise and enhance their resumes.

- Practical strategies to incorporate these tools into your teaching.

- Exciting news about the Adobe Certified Professional and Meta Digital Marketing Associate Certification programs.

We can't wait for you to join us and discover how you can empower your students to thrive in the growing marketing and creative career fields.

The latest for IT Specialist educators

IT Specialist Device Configuration and Management exam update coming in February

As Microsoft prepares to retire Windows 10 this year, in parallel we have updated the IT Specialist Device Configuration and Management exam with Windows 11 concepts. We have made minor adjustments to the objective domains for Windows 10 and Windows 11, specifically the addition of objective 2.2 and the incorporation of Windows Hello to objective 4.2 to the Windows 11 exam. If you have a license, voucher, or inventory for Device Configuration and Management, you will not need to make any updates to your testing center.

When learners are ready for the exam, they should select the Device Configuration and Management exam. They will be given the option to choose Device Configuration and Management Windows 10 or Device Configuration and Management Windows 11, depending on which platform they used to prepare. The certificate will be the same but the score report will reflect Windows 10 or Windows 11. Our valued learning partners are working as quickly as possible to update their content to reflect this change. We are anticipating LearnKey, GMetrix and Brain Buffet to have their content reflect Windows 11 throughout this year. Updates to Arabic, Chinese Simplified, Chinese Traditional, Spanish, French and Portuguese will be coming at a later time.

Tell me more about the upcoming changes

New questions for the IT Specialist Python certification exam

A new version of the IT Specialist Python exam validates candidates' Python knowledge thanks to performance-based questions, which require real-world coding tasks, including writing Python code in VS Code, an integrated development environment. The Python exam objectives and the certificate candidates receive upon passing the exam remain the same.

Empower future healthcare professionals with Certiport's Medical Administrative Assistant certification program

Test out the material by trying the crossword puzzle

Do you know a health sciences educator? Invite them to empower their students with Certiport's new Health Science Careers – Medical Administrative Assistant Certification Program. Developed alongside subject matter experts, psychometricians, and industry professionals, this certification equips learners with the skills needed to make meaningful contributions in the health science field.

To ensure learners are fully prepared, we have partnered with GMetrix to offer CertPREP Practice Tests, Powered by GMetrix, to help candidates confidently master the content before taking the exam. Curious about the materials?

Explore the Medical Administrative Assistant crossword puzzle—a fun and interactive classroom activity that provides a sneak peek into the practice test content.

Download it today and inspire the next generation of healthcare professionals!
