Improving the user experience: Updates to the Compass Local exam selection flow

We're pleased to launch a new exam selection flow for Compass Local that enables a faster, smoother experience for candidates and proctors.

Users can now find what they need more quickly, whether by clicking on certification program logos, filtering by program, or using the improved search functionality.

It's also easier to identify the exams for which you have applicable vouchers, inventory, or site licenses, preventing learners from selecting incorrect exams. Candidates also have the option to enter a voucher code and view the exams associated with that voucher.

Make sure to check out the release notes on the [System & Technology Updates](#) page for details and news on Compass Local updates, as well as other projects like continual improvements to the [Certiport Portal](#).
