NEWS UPDATE

December 9, 2020

PMI Project Management Ready™ Goes Live Tomorrow!

You saw our announcement earlier this year, and the time has finally come! PMI Project Management Ready™ certification is going live this week!

Project Management Institute® (PMI) is the world's leading association for those who consider project, program or portfolio management their profession. Through global advocacy, collaboration, education and research, we work to prepare more than three million professionals around the world for The Project Economy: the coming economy in which work, and individuals, are organized around projects.

The PMI Project Management Ready™ certification is a way for students to immerse themselves in the project management industry and connect with this passionate community of professionals.

Courseware is also available for purchase and practice tests will be available early 2021.

Get ready to bring project management skills to your students!

IC3 Digital Literacy Level 3 Exam Is Now Available

Certiport is proud to announce the release of the IC3 Digital Literacy Global Standard Six (GS6), Level 3 exam. This exam is the final release of the newest version of IC3 Digital Literacy and measures a candidate's mastery of digital literacy by demonstrating the knowledge required to manage computers and mobile devices to collaborate and communicate effectively while solving problems and creating solutions leveraging applications. Successful completion will also demonstrate a student's ability to troubleshoot and provide guidance to others.

Would you like to try our latest exam? You can by taking our Test Drive demo! We have put together a demonstrational exam that covers all three competency levels.

I'm Ready to Test the New IC3

To learn more about IC3 Digital Literacy Global Standard Six, including more detailed objective domains, please visit: www.certiport.com/ic3.

Adobe Flash Player Retirement

Adobe announced in 2017 that they will be ending support for the Adobe Flash Player on December 31, 2020. In addition, Microsoft has announced that they will remove support of Flash from all Microsoft browsers.

With the Flash Player "End-of-life" (EOL) deadline quickly approaching, make sure to review the exams that will be impacted.

Resources for You

Can Certification Close the Skills Gap?

In the United States and across the world, many good-paying jobs are going unfilled as employers struggle to find the workers they need. This common problem, sometimes referred to as a 'skills gap', impacts every virtually every industry. As technology races forward, an ever-widening gap has developed between skilled workers and unskilled workers.

Learn all about the skills gap with Certiport's e-book, *So Many Jobs, So Few Qualified Workers: How to Fix the Education Disconnect*. Get an in-depth look at the growing dilemma of the skills gap and read some insights about how certification can help solve this problem.
