ESB Academy Starts Now

National Entrepreneurship Education week is right around the corner, but we're kicking things off early. From Monday, February 8th to Friday, February 26th, Certipoint will host the first-ever Entrepreneurship and Small Business Academy (ESB Academy), an immersive online experience for entrepreneurial educators. Get exposed to the power of entrepreneurial skills, connect with other entrepreneurship educators, learn from major influencers about the importance of entrepreneurial education, and discover more about Certipoint's Entrepreneurship and Small Business (ESB) certification.

You're Invited: Autodesk Certified User Virtual Office Hours

Learn how you can give your CAD students hands-on experience and award them with one of the industry's most in-demand certifications, Autodesk Certified User (ACU).

We are holding virtual office hours all month long so that you can drop by at your convenience to talk about the certification. From the basic overview of what ACU is to how to best utilize the testing software, we will be ready to answer all your questions during our virtual office hours. We will be holding daily raffle giveaways for those who visit us during office hours! Drop in and leave your name and email for your chance to win.

Office Hours Schedule

Resources for You

The Value of Certification, Now More than Ever!

Many things have changed over the past year. As a result, there has never been a better time for students and workers to possess marketable skills. The best way to validate one's skills is through industry-recognized certifications. Certifications are an important credential that stand in addition to, in support of, or independently from degrees and diplomas.

Certifications are often created or supported by industry-recognized organizations and administered in controlled environments by authorized and independent agents. Because of this, they carry a high degree of credibility and possess great value.

To help communicate the message of value of certification, Certiport has assembled an excellent collection of resources, including white papers, datasheets, and videos. Please refer to these materials to learn more about the value of certification.
