Cisco Certified Support Technician Cybersecurity exam and supporting learning products are now available!

We have recently released the first exam in the Cisco Certified Support Technician program, the CCST Cybersecurity exam. In addition to this exam, the CCST Cybersecurity CertPREP Practice Test and LearnKey course are also now available.

The CCST Cybersecurity certification exam is a work-ready validation of skills and knowledge needed to launch or advance a career in high-demand roles, including Cybersecurity Technician, Analyst, Support Specialist, and SecOps Analyst. It is also a great entry point into the larger Cisco Certification program, including the Cisco Certified CyberOps Associate certification, offered by Pearson VUE.

New prep materials coming soon for PMI Project Management Ready™

In addition to the next generation certification exam coming to the PMI Project Management Ready program, new and updated practice and prep materials will be available.

Here’s a look at the suite of materials that will be available to prepare for the PMI Project Management Ready certification:

Continued...
• **NEW! CertPrep practice tests (powered by GMetrix)** allow users to access certification practice material in the same convenient way as any other Certiport practice tests. CertPrep practice tests are available for the current version of PMI Project Management Ready and an updated version will follow the same schedule as the next generation exam release.

• **NEW! Courseware from CCI Learning** offers self-paced or instructor-led options to prepare for PMI Project Management Ready certification. Resources for teachers include detailed lesson plans, student management, pre-assessments to customize material based on subject knowledge, and a variety of learning options. Learners can toggle between an e-book, video modules, or a hybrid approach to instruction.

• **Courseware from Moore Solutions (MSi)** provides students with an understanding of key concepts and terminology related to project management. MSi’s interactive technology includes knowledge checks, quizzes, case studies, vocabulary activities, and projects to help candidates learn in an engaging, challenging, rigorous, and relevant environment.

The new exam and learning products will be available to preview in April and the existing exam and learning materials will be overwritten in July.

Get advice for partnering with businesses

Most high school students can’t say their after-school job is Network Administrator, or Systems Administrator. But wouldn’t it be amazing to give them that experience? In our upcoming CERTIFIED Academy: Business webinar, we will learn from education experts about how to partner with businesses to give your students real-world work experience.

Join us on March 22nd at 4 PM ET to discuss why and how to build a bridge between classrooms and the workforce, how to create a business advisory board, and how the bridge between the classroom and the workforce can impact your students.

I need to catch this session

Hannah Crepeau: Content Marketing Manager
Diversity, Equity, Inclusion, and Certification

Creating a diverse, equitable, and inclusive classroom requires dedication and effort. But the efforts are well worth the results. California educator, Marjorie Duffy, has seen that firsthand.

During this episode, we talk about all different kinds of diversity (in age, in race and ethnicity, in economic standing) and the impact that diversity has on the classroom. Marjorie talks about how she's evolved her teaching approach over the years, to provide students a more inclusive learning experience. Plus, she shares how she's learned from her students. In her words, “If you want to help learners, you have to be a learner.”
