Meet the Cisco Certified Support Technician certification

Cisco, the worldwide leader in technology that powers the internet, has partnered with Certiport to create the Cisco Certified Support Technician (CCST) certification program.

This program includes two certification exams designed to validate work-ready skills and knowledge to help learners find a job in the field of networking and cybersecurity. Earning a Cisco Certified Support Technician certification showcases the learner’s skillset to employers, telling them they are ready to roll up their sleeves on day one.

Preparing Students for Careers in Accounting and Finance

The Bureau of Labor Statistics is projecting higher than average growth in accounting and finance positions in the coming decade. In fact, over 715,000 openings are predicted in the business and finance sphere between now and 2031. With such strong growth (and earning potential), it's no wonder educators want to prepare students for jobs in accounting in finance.

Join us for the next CERTIFIED Academy: Business webinar on March 8th at 4 PM ET to talk with accounting educators and professionals about the skills most in demand in the finance industry, and how to help students be prepared for the workforce.
