Update on the MOS and ACA World Championships

Certiport recently announced the new Microsoft Office Specialist (MOS) and Adobe Certified Associate (ACA) U.S. National Online Championships. Students can participate in the [MOS U.S. National Online Championship](#) by submitting a qualifying MOS exam by May 14th, and students interested in participating in the [ACA U.S. National Online Championship](#) can submit a qualifying ACA exam and design project with source files by May 7th. The winners of the U.S. National Online Championships will win cash prizes and an invitation to participate in the MOS and ACA World Championships.

The World Championships are global competitions, and most of the participants are international attendees. After considering all alternatives and gathering input from our Certiport partners throughout the world, Certiport has decided to cancel our August 2021 in-person World Championship events and go completely virtual in 2021 due to the continued difficulties resulting from the pandemic and international travel restrictions.

The virtual events are planned to be held in the fall of 2021 and will follow the same format as the previous World Championships. National MOS

winners will compete alongside other national winners and take a MOS competition exam remotely, and ACA competing students will create a design project remotely. Certiport will share more details in the coming months regarding the competition format and exact dates.

If you have questions about the Microsoft Office Specialist World Championship, please email moschampionship@pearson.com. If you have questions about the Adobe Certified Associate World Championship, please email acachampionship@pearson.com.
