CERTIFIED ACADEMY

Prepare the next
generation of professionals

What skills do your students need for their careers?

You're focused on preparing students to be future employees and leaders. Discover what employers value most—and how you can equip students with the skills to thrive.

Join us on May 19 at 11 a.m. ET where we'll sit with business leaders and HR professionals to discover what skills matter most. We'll also talk about resumes and interviewing, plus how your students can land their dream job.

On the podcast: Why certification?

Today's students are preparing for a competitive future, in both higher education and the workforce. How can you help them stand out and succeed? Certifications.

In this CERTIFIED podcast episode, we're bringing you perspective from education and the workforce about why certifications matter.

Whether you teach young students or adults, this episode will help you understand how industry-recognized credentials can benefit your community.

Meet the newest Microsoft certification

Help your students master the fundamentals of Copilot and AI administration with the new Microsoft Certified Fundamentals Copilot & Agent Administration (AB-900) certification.

This exam validates the essential skills needed to support, secure, and administer AI-powered Microsoft 365 environments. It's an ideal starting point for aspiring IT administrators, early-career professionals, business analysts, project managers, and anyone eager to understand how AI, Copilot, and intelligent agents are managed in the workplace.

Have you heard?

Exam retirements: Stay in the know

Our certifications ensure your students have validated skills in the latest technologies. This means retiring the older versions of the software and exams and focusing on the newest applications.

Check out our list and corresponding dates of recent and upcoming exam or application support retirements. Make sure to update to newer exams and applications as soon as possible to avoid issues with exam delivery.

Which exams are retiring?

Seamless deployment and instructor support with MSi

Getting students into learning—and keeping instruction moving—should be seamless. MSi makes curriculum deployment simple on your platform or ours, while providing end-to-end support and resources that save you time.

With MSi, you have:

Easy integration

- Multiple single sign-on options with Google, Microsoft, Clever, and MSi SSO.
- Token enrollment for quick, no-hassle student access.
- Deep LMS integrations with Canvas, Moodle, D2L, Schoology, and more via LTI 1.3 for secure, standards-based connectivity.
- MSi Embed for a native, in-LMS experience—students never leave your environment.
- Automatic grade sync and seamless content updates.

Instructor-first support comprehensive materials

Scope and sequence documents, lesson plan creators, pacing guides, and ready-to-use PowerPoint slides.

End-to-end partnership

Technical support and curriculum mapping from a dedicated, in-house team—no outsourcing.

Proven quality

95% customer satisfaction and a commitment to meeting the highest academic standards.

Continued...

Plus, MSi now offers learning products for all our programs, allowing you to streamline your entire catalog with one trusted provider—across all your certification courses.
