Autodesk Certified User (ACU)
Exam Tutorial

2023 Inventor - Next Generation
This exam has 30 - 35 questions.
The maximum exam time is 60 minutes.

Exam Process

The exam experience follows this process:

1. **Tutorial.** The tutorial provides helpful information about the exam environment. Read the tutorial carefully. When you are ready to begin taking the exam, select Start Exam.

2. **Exam Questions.** The exam timer starts and the questions appear. You can move forward and back through them, answer them, and mark them for review or feedback.

3. **Exam Summary.** The exam summary indicates the questions you have answered, not answered, marked for review, and marked for feedback. You can review and change your answers. The exam timer stops and your answers are submitted when you select Finish Exam.

4. **Feedback.** You can leave feedback about the exam and individual questions. When you finish leaving feedback, select Exit Exam to display your score report.
Exam Interface and Controls

When the questions section is launched, the exam panel 1 will appear on the left and Inventor 2 will appear on the right.

You can change the size of the exam panel by dragging the vertical edges 3 between the exam panel and Inventor. As long as Inventor is maximized, the edge of the test panel and Inventor will move together.

If you click Restore Down 4 the vertical edges will no longer move together and Inventor can be moved to a second monitor.
Exam Panel

The exam panel has three panes, the Information pane ①, the Content pane ②, and the Navigation pane ③.

① The Information pane at the top of the exam panel shows the current question number, the total number of questions, and the remaining exam time. The progress bar fills to indicate the percentage of questions visited.

② The Content pane in the center of the exam panel contains an instruction statement and the questions to be answered using the current data file.

③ The Navigation pane at the bottom of the exam panel contains buttons and options for moving through the exam.

Create the part as shown with a thickness of 0.125 inches

What is the volume of the part, in cubic inches?

# # # # in^3

Mark/Unmark for Review

This question is marked for review on the Exam Summary page.

This question is not marked for review on the Exam Summary page.

Number signs (# # # #) are displayed next to the answer field to indicate the number of decimals the answer should be given in. For example:

- _____ # # # # kg indicates an answer of 1.234 kilograms
- _____ # # # # mm indicates an answer of 1.234 millimeters
- _____ # # # # m³ indicates an answer of 1.234 cubic meters
- _____ # # # # lbmass indicates an answer of 1.234 pounds
- _____ # # # # in indicates an answer of 1.234 inches
- _____ # # # # in² indicates an answer of 1.234 square inches

Answer Hints

Mark/Unmark for Comment

This question is marked to remind you to leave feedback about the question.

This question is not marked to remind you to leave feedback about the question.

Additional Instructions

- Although some applications allow you to copy values and paste them into the exam, you need to be aware that leading or trailing spaces might cause numbers to be missing. If you choose to use Copy/Paste, make sure to verify the pasted value.
- Answers are not case sensitive.
- Decimals can be expressed by either periods or commas.
- Leading or trailing zeros will not affect your score.
- If the exam panel is too narrow to display the question content, either make the panel wider or scroll to the bottom of the question and use the horizontal scrollbar.
- You can use Ctrl+(+) and Ctrl(-) to control the size of the content within the exam panel. Ctrl+0 will reset the content in the exam panel to the default size.
Navigation Pane

The Navigation pane at the bottom of the page contains buttons and options for moving through the exam.

1. The buttons collapse into icons as you decrease the width of the exam panel.

2. Tools menu contains the following options:
   - Go To Summary: This option takes you to the Exam Summary page.
   - Instructions: This option gives you some instructions on how to use the exam panel.
   - Calculator: This option displays the calculator.
   - Color Scheme: This option allows you to change the color scheme to Black on White or White on Black.

3. Reload File: Load a fresh copy of the current data file. This will discard any changes you've made to the current file. This will not affect any questions you have answered.

4. Restart: If for any reason Inventor has closed or is frozen, select this button to restart it. The exam timer pauses while the application restarts.

5. Back: Loads the previous data file and the questions related to it.

6. Next: Loads the next data file and the questions related to it. If you have not answered all of the questions on the current data file, a warning will be displayed to allow you to cancel navigation or continue.

Reviewing Questions

The Exam Summary appears after the final exam question. You can also move to this page by selecting Go to Summary from the tools menu on the exam panel.

The Exam Summary indicates the questions you have answered, not answered, marked for review, and marked for feedback. The exam timer runs until you select Finish Exam.

On the Exam Summary page:

1. Select any of the question content listed to return to that question.

2. Select the Answered, Unanswered, Review, or Leave Feedback category heading or icon to return to the set of questions in that category. You can review and modify your answers, clear the review flags, and mark questions for feedback.
   - The Unanswered column indicates questions you did not respond to or for which you did not provide the required number of responses.

3. Select Finish Exam to submit your answers, stop the exam timer, and move to the feedback section of the exam. You cannot change your answers after you finish the exam.
Feedback and Exam Results
After you submit your answers, you can leave feedback about individual exam questions and about the exam in general. The exam team will review your feedback and use it to improve future exam experiences. You cannot change your answers during the feedback stage.

Expand a question and select the Leave Feedback button to leave feedback about that question.

When you finish leaving feedback or the feedback period ends, select Exit Exam to display your exam score report.

This is the end of the tutorial. Select Start Exam to leave the tutorial and start the exam. Your exam time begins when you start the exam.
