

April 24<sup>th</sup>, 2024

Dear Certiport,

The Philippine Society of Information Technology Educators (PSITE) is the nation's largest professional organization of IT educators in the country. It is a non-stock, non-profit organization that includes the Philippine educational institutions offering IT education programs for Computer Science, Information Technology, Information Systems, and Multimedia Systems.

The entire PSITE community is true to its mission and vision by helping IT educators reach full academic potential through validation of skills through industry-recognized certification. As such, we fully endorse the Adobe Certified Professional, IC3 Digital Literacy, IT Specialist, Intuit Quickbooks Online, Intuit Certified Bookkeeping Professional, Microsoft Office Specialist, Microsoft Certified Fundamentals, Microsoft Certified Educator, and PMI Project Management Ready™ certification programs.

These global certifications empower educators to enhance their effectiveness in training students. Through these certification programs, IT educators are evaluated on the latest technologies and trends, equipping them with the confidence to effectively impart knowledge and skills to their students.

PSITE is promoting upskilling students for job readiness and giving them a brighter future with these global certification programs.

**We are #OnePSITE!**

Sincerely,

Joey M. Suba, DIT  
President, PSITE National
