Microsoft Excel Expert 2010, Objective Domain

Exam Design

The Basics

This is a Technical Specialist exam designed to assess candidates' hands-on skills using Microsoft Office Excel 2010 at the Expert level. We are specifying an item pool of 75 unique performance-based tasks. Items should be written to the Application cognitive level. For more information about cognitive levels, refer to the Cognitive Domain in Bloom's Taxonomy.

Categories in the cognitive domain of Bloom's Taxonomy (Anderson & Krathwohl, 2001)

Target Audience

The audience profile for the Expert Exam is a skilled office worker or student with at least 6 – 9 months use of the particular Office software.
